

Corporate Profile

Everything IT

EMEA Solutions is everything IT; we have been providing the following professional services to quality clients in Qatar for over seven years:

- Outsourced IT Support
- Managed Services
- Integrated Systems Implementation
- Infrastructure Cabling, Technology Fit-out
- Access Control & Security Solutions
- CCTV & Intrusion Alarm Systems
- ICT & Security Planning & Design

From the ICT cabling design, planning and implementation to outsourcing your IT Operation and confirming the best business systems for your company ... we do the job right first time.

Benefits of EMEA Solutions

Companies that use EMEA Solutions are achieving the following benefits for clients:

- Best practice use of ICT
- Enhanced security access & control
- Integrated systems supporting efficient processes
- Confirmed and prompt delivery times & support
- Saving money rather than doing in house
- Save you space and rent costs

Key Services

Our service can be grouped under four headings as follows:

Outsourcing/Managed Services Solutions – We do it for you and save you money, staff management, space and headaches.

Integrated Systems – Best practice IT systems is our love and we tailor solutions with you for you.

ICT Infrastructure – We work with companies to design and fit-out buildings for their ICT needs to the highest specifications for future growth.

Security, CCTV & Access Control – Technology is now a key solution as part of integrated systems, business practice and operations.

Our Approach & Team

Significant improvement in performance and management is our solutions-based focus.

We can review your systems and advise you on next steps.

EMEA Solutions has over 20 core staff and access to unlimited associates via our partners.

ICT, Security & Integration Programs

We have delivered programs in both the private and public sector. The following are some industries we cover and have provided solutions:

- Oil & Gas Industry
- Government Departments
- Banking Industry
- Military Installations
- Retail Outlets
- Hotels & Real Estate
- Franchise Operators & Chain Stores

ICT & Security Audits

An ICT Audit or Security & CCTV system audit, undertaken by EMEA Solutions, will review your ICT & security processes and practices to determine your needs and help ensure you maintain a competitive advantage.

ICT and associated systems are changing rapidly and our no obligation initial consultation can help review your operation and see how we can improve your systems.

Other Related Services

In addition EMEA Solutions is skilled in conducting various other ICT Consultancy Projects and ICT Training tailored to your needs. Advising and supporting people as part of the business is our approach.
